CERTIFICATE

Backup Electric Supply

Yogi Vemana University is equipped with 5- generators and a dedicated Online UPS for individual 33- interactive panels utilized for Academic online classes, and conference purposes. In addition, ten 10-KVA UPS connected to the research facilities, and 20 units of 5-KVA UPS to meet the backup power supply requirements for the students and research laboratories.

This certificate confirms that Yogi Vemana University is equipped with a comprehensive backup electric supply system (as depicted in the preceding paragraph) to ensure uninterrupted power even during grid outages.

- Multiple Backup Generators: The university strategically placed multiple generators throughout the campus, providing ample capacity to sustain critical operations.
- Automatic Switchover: In case of a grid failure, the system seamlessly switches to backup power, minimizing disruptions and downtime.
- Regular Testing and Maintenance: The generators undergo regular testing and maintenance to ensure their reliability and readiness.

Yogi Vemana University is committed to providing a reliable and resilient power supply for its academic community, research activities, and administrative functions.
