## One Day National Workshop On

Geological Science: Prospects & Potentials  
06-03-2020

### Potential Prospects of Geological Sciences in various Mineral based industries

Department of Geology, Yogi Vemana University,  
KADAPA- 516 005, AP

To make true the University motto "Teaching, Research and Service" the Department of Geology has well equipped conventional exploration laboratories like Geophysics, Geochemistry as well as advanced laboratories like Satellite Image Processing laboratory and GIS laboratory and Digital and Visual Interpretation laboratory. While in teaching, the Department has successfully geared up many skilled students among whom more than 80% of the students got employment in various Government sector like Mines and Geology Department, APSRAC, NRSC and Industrial sectors in India as well as abroad. In the area of Research, the Department has successfully completed over 30 academic projects in various fields like Mineral Exploration, Groundwater Exploration, Groundwater quality, Groundwater Assessment, Land use Land cover etc., for 15 batches of Master's students since its inception. Further, the Faculty handled 3 Major Scientific Research projects funded by DST, UGC etc. With regards to the consultancy service: the Department is planning to provide the Groundwater exploration surveys (Resistivity surveys) to the rural people. The Mineral Resource Information Centre which will be equipped with all information regarding minerals, ground water, river systems, land use land cover of Kadapa district mapped by using satellite imagery.

### Location

Kadapa Town is known to be the threshold of World famous Tirumala Tirupati Shrine of Lord Sri Venkateswara Swamy, and supposed to get the name initially the Gadapa and later popularized as Kadapa.

Cuddapah basin takes primary position while enumerating the Purana Basins of India. The basin is named after the Cuddapah town (Kadapa) which is at the heart of the Cuddapah basin. The Yogi Vemana University in turn takes vital position of the Kadapa city. The city vicinity is endowed with many mineral resources of much economic importance. It encompass world famous Bedded type Barytes deposits of Mangampeta, Strata bound Uranium deposits of Pulivendula and many other minerals like Asbestos, Limestone, Iron, Clay, Talk, Steatite, Lead, Zinc, Silica Sands, Placer diamonds, Building stone. Synoptically the Kadapa city postured in GPS at 14°46'73"-- latitudes and 78°82'42" longitudes.

### Projected Themes

The proposed workshop will provide discussions on inventive techniques in *natural resource exploration, ore beneficiation, logistics, groundwater exploration, water systems, brine water beneficiation, Renewable and Non-Renewable Energy systems efficiency & Reuse, Pollution control, Resource recycling and reuse* in the following industries

REGISTRAR  
YOGI VEMANA UNIVERSITY

- ❖ Mining Sectors
- ❖ Cement, Fertilizer, Chemical, Glass, Pharma, Agro, Seed processing, Rice mills.
- ❖ Groundwater studies
- ❖ Iron ore industries,
- ❖ UCIL,
- ❖ Municipal solid Waste handling,
- ❖ Pollution control,
- ❖ Agriculture and Irrigation Sector etc.,

### Expertise Invited

- Scientists/Directors from Department of Mines & Geology
- Scientists/Directors Groundwater Department.
- Directors from Department of Industries
- Scientists from Cement Industry

### Interaction between Experts & Industrial People

There will be an Interaction session for an hour after completion of the Technical session in the Afternoon. The Industrial personnel can voice their problems before the Experts/Organizers of the Workshop to obtain solutions/suggestions. Further the Organizers assure to undertake research on the problems projected by the Mining and Industrial sector to get possible results with mutual collaboration and coordination.

**Workshop Report**

This is one of the series of Conferences; Seminars organized by the Department of Geology to encourage the young minds towards Science and motivate them for the better career of their choice and also disseminate the knowledge about current trends, innovations and practices in Geological Science.

The invited speech delivered by Sri. N. Kutumba Rao, Director General (Rtd.), Geological Survey of India, who emphasised the importance of the natural resources exploration and ore beneficiation. Recent and new views were updated by Sri. G. Bhaskar Reddy, Joint Director, Dept. of Mines & Geology, Govt. of Telangana. The evolution of various branches of earth sciences and their culmination into earth system science was traced by Prof. M.R.K. Reddy, Rector, Yogi Vemana University, Kadapa.

Environmental Geosciences and related topics include Environmental Geology, Medical Geology on Arsenic and Fluoride pollution in groundwater, and geo-environmental aspects in connection with exploration for coal and petroleum were discussed. An exclusive session was devoted to the young researchers to estimate spatio-temporal variations of surface water availability at regional scales and their challenges and opportunities.

Interactive session between experts and industrial people has successfully carried out and the potential insights from the experts through their presentations and deliberations are very much useful for the students.

The goal of the workshop was to provide students with hands-on training on the fundamentals of prospects and potentials of geological science and expose them to real-world data. The training helped the students to develop the skill of satellite image processing and visual interpretation and prepared them for potential future careers.

The main take away from the workshop is the utmost need felt for integration of various disciplines of the Earth system science to address scientific problems of contemporary importance. The sessions were well attended by ~30 students, research scholars and faculty of Yogi Vemana University.
