**Awareness on Trends in Emerging Technologies**

The Department of Biotechnology & Bioinformatics, Yogi Vemana University, Kadapa was conducted the following Seminars/Awareness Programmes on “Recent Technological Developments in the Field of Biotechnology and Bioinformatics” to the students of biotechnology & bioinformatics and other life sciences students during the academic year (2016-17) to enrich their knowledge in these day-to-day changing technologies.

| Date       | Topic   | Speaker            | Signature |
|------------|---|--------------------|-----------|
| 17/08/2016 | Stem cells in regenerative medicine           | Dr. V. Ramakrishna |           |
| 3/12/2016  | Bioremediation – Hope for healthy environment | Dr. M. Madakka     |           |
| 21/01/2017 | Microarray technologies in disease mangament  | S. Anjum Mobeen    |           |
| 23/02/2017 | R-programming for bioinformatics              | Manoj Kumar Gupta  |           |
